

Sierra Enhancements

Adjustable Height Workcenters — Accessories

Environmentally friendly materials and unique roller design of the Modesty Screen

Laptop connections are quick with convenient access to power and network ports

Opens with touch of a finger, snaps closed when not in use

Locking casters will put your workcenter on the move

Add Functionality to Your Sierra Workcenter

These new products enhance the functionality and value of each Sierra workcenter. Whether it's an innovatively designed modesty screen below the surface, a sleek power/data supply on the desktop or stylish casters on each leg, all are designed with comfort and productivity in mind. Installed in combination with our Sierra Tool Bar or Privacy Panel and accessories, the Sierra becomes a highly productive work center.

Sierra Modesty Screen

Provides privacy from 7¾" above the floor to under the worksurface, maintaining clean visual lines no matter the height of the worksurface. The screen is constructed of Terratex®, a fabric made from 100% recycled or bio-based materials and is a completely recyclable product at the end of the products life cycle.

Sierra Power/Data Supply

Flush mounted to the worksurface, these conveniently located power and data ports gently glide up with a press on the top of the unit. Ideal for lap top computer users who wish to maintain a clean worksurface. One power receptacle and one voice/data port with network adapters to accept the most popular jacks.

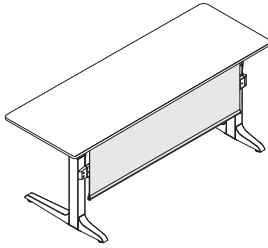

Sierra Locking Casters

Keep your work environment comfortable, productive *and* dynamic with the new Sierra locking casters. Allows for movement of workstations to accommodate your changing workplace while providing a sturdy locking mechanism once you've found the perfect location.

At Workrite we believe every body has a right to work comfortably and safely for maximum productivity. You can trust Workrite, as 75% of Fortune 100 companies have, for solutions that fit today's diverse range of workers.

Sierra Enhancements Adjustable Height Workcenters — Accessories

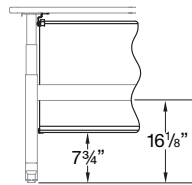

Sierra Modesty Screen

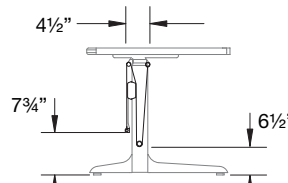

- Screen height increases as worksurface is raised. Fabric is on rollers to provide full coverage from 7¼" off the floor up to the worksurface with only ½" reveal on vertical edges.
- Outer bottom edge of screen is in a fixed position; provides clean visual lines across adjacent workstations.
- Mounts to all Sierra Electric or Sierra Pin workcenters (including base-only Sierra versions)
- Screen is Terratex® from Interface Fabric, made from 100% recycled or bio-based materials and is fully recyclable or compostable at end of product life. Life cycle assessment results exceed that of all virgin polyesters
- Fabric meets environmental and consumer protection standards established by the non-profit Center for Resource Solutions
- All metal hardware and components are recyclable.
- Available in two colors - silver or charcoal.

Color	Model #	Weight
Charcoal	941- [] -C	*
Silver	941- [] -S	*
